

These data come from an evaluation form that is completed by the school principals where the EPP's completers are employed. The evaluations are completed every year for both in-field and out-of-field completers. The data provide an indication of the effectiveness of our completers, but VAM Score is only collected from in-field completers. The data that we receive cover three-year periods for those completers working in a public or charter school in the state of Florida.

2022 School District Personnel Evaluations for Florida A&M University Completers, 2017-2020

Program Name	Highly Effective		Effective		Need Improvement		3 Years Development		Unsatisfactory		Not Evaluated		# of Personnel by Program	Teacher Evaluation Matrix Score
	#	%	#	%	#	%	#	%	#	%	#	%		
ENGLISH EDUCATION/ESOL ENDORSEMENT 6-12	2	50	2	50									4	4
